The program begins with an initial assessment of any GREENInitiatives (eco-friendly actions and measures) already in place in your company. These GREENInitiatives are grouped into five sections—one for each main area of concern. For each topic, check the box that applies to your situation. You can access your updated action plan after completing each section. Whenever a new GREENInitiative is brought into play, you can return to your assessment and check the “implemented” box; in doing so, you improve your performance score and your progress report!

1 QUALITY OF LIFE AT WORK

2 RESPONSIBLE CONSUMPTION PRACTICES

3 WASTE MANAGEMENT

4 ENERGY EFFICIENCY

5 REDUCING GREENHOUSE GAS EMISSIONS
